

RIP, VHS

Last year (June 2016) Japan based Funai announced that it would no longer manufacture VHS based Players.

So If your old vhs player no longer works now is the time to get your vhs tapes converted to DVD.

Mention this post and for the next 30 days (from 6/15/17 – 7/15/17) if you bring in 5 or more VHS tapes for conversion we are offering a 10% discount on our conversion service.

The small print is that the tapes may only contain home movies not commercially copy written materials.
